

Spin-Drive[®] Model 400

Clear 2" to 4" drain lines with the compact Spin Drive Model 400. A large crank on the back of the drum gives you powerful leverage, and after a couple turns, you'll have the speed and momentum to break through a stubborn stoppage. The drum is made of heavy gauge steel and is treated for rust resistance. Three holes are punched in the drum for quick cleaning and drying of the cable. The drum turns easily on self-aligning oilite bearings mounted front and rear. A convenient carrying handle is mounted on the drum for easier portability. The drum can hold up to 75 ft. of 1/2" Flexicore[®] cable.

Recommended Units, Complete with Flexicore Cables

Unit No.	Contains	Weight/Pounds
450FL2	50 ft. x 3/8"	34
